

THE GRANGE SCHOOL

Mr V Murray – Headteacher

September 2025

Dear Parents and Carers

Re: Sparx Maths Homework for Year 7

We are excited to inform you that from Wednesday 24th of September, your child will be using Sparx Maths to complete their weekly maths homework. Sparx Maths provides a highly personalised weekly homework to students, tailored to their attainment level and working speed. Your child's homework will be set on each Wednesday at 3pm and due each Wednesday at 8am every week.

We know you want to support your child's maths progress, so we are sending this letter to explain how Sparx works and how you can help your child to complete their homework each week.

What is Sparx Maths Homework?

- Sparx provides personalized homework to each child, with questions that are challenging yet achievable, and tailored to their learning needs.
- The majority of each week's homework will be based on recently learnt topics, but it will also include some questions from previous topics to help reinforce their learning.
- Students access their homework on their online Sparx account, where they'll get immediate feedback for each question about whether their answer was correct or they need to have another try. A weekly reminder is issued on Satchel to help students stay organised.
- Every question in Sparx has a support video attached to that your child can get help independently.

How can you help your child with their homework?

- Provide a quiet space for your child to focus on their homework each week.
- Encourage them to start their homework early so they can get help from their teacher before the deadline if they get stuck. To ensure no gaps form in your child's maths knowledge, homework is not marked as complete until all of the compulsory questions have been answered correctly.
- Try not to help your child with a question until they've had a go first. It is essential they try to complete their homework independently so that Sparx can give them questions that are at the right level for them. Remember they can watch the support videos if they need to.

Our expectation is that every student aims for 100% each week. We believe this is achievable as Sparx personalises homework to an individual's level and provides immediate support in the form of short, question-specific videos. To further support your child an onboarding session will be done for them to get familiar with the platform, answering questions and completing their timetable.

We hope you agree that Sparx will play an exciting and important role in growing your child's understanding, success and confidence in maths.

If you have any questions, please contact your child's Maths teacher.

Yours faithfully
