# THE GRANGE SCHOOL

*Mr V Murray – Headteacher*

November 2026

Dear Parents/Carers

**Re: Satchel One**

As you know, we have moved back to Satchel One as our digital homework platform. This was as a direct result of listening to your feedback and The Grange School wanting to support better working relationships with both our students and our families to ensure that you can fully engage with and support your child's learning.

All Year 7 students have been given a letter which has the Parent Access Code in. You will need this to log into the Satchel One app so that you can check-in with what homework activities your child has been given and to support them in completing these tasks.

Satchel One offers the following benefits to support with your child:

1. The ability to move completed tasks to 'Done' list.
2. Push notifications so students and parents know homework has been set or a deadline has been missed.
3. An online noticeboard that Grange staff will use to communicate group information e.g. school visit information, meetings or Extra-Curricular activities.

We have also reissued a Parent Access Code letter to all students whose parents/carers have not engaged with Satchel One before so that you can now access the app since we have rejoined to ensure you are offered the same supportive experience. Please do ask your child for this letter so it doesn't sit at the bottom of their school bags!

I would like to reinforce that our main system for communication will remain via the Bromcom My Child At School (MCAS) App, but following last half term's trial and taking into consideration your feedback, what Bromcom offered us to facilitate homework was neither suitable nor fit for purpose, hence our return to Satchel One.

Should you have any issues with accessing Satchel One or require operational support, please do contact us and we will strive to support you. The best way to ask for support is by contacting us here - parent-it-help@grange.bucks.sch.uk

Yours faithfully

**Mr A Haycock**
**Digital Strategy Lead**
