Year 11 Overview

Students continue to revise, use and add to their grammar knowledge. New grammar includes the pure future tense, pluperfect tenses (past), and for some students we will look at the subjunctive present. Topic work includes talking about healthy lifestyle, the environment and social issues, our neighbourhood and holidays.

Year 10 Overview

In Year 10 we build on the grammar and vocabulary acquired at KS3. We start by revising the 3 basic tenses of present, past and near future. During the year, through our topic work we introduce more in depth grammar work, the imperfect tense, the conditional tense and we study the use of modal verbs, a wider variety of adjectives and vocabulary. Topic work is based on my life & my family and talking about identity and culture including the francophony. We also cover school and your future plans.
