THE GRANGE SCHOOL

Mr V Murray – Headteacher

November 2026

Dear Parent/Carer

Re: A-Level Mathematics – Graphical Calculator

You may recall from the information given to you during the Sixth Form Enrolment, that all students on the Mathematics A-Level course require a graphical calculator.

There are many different calculators to choose from, however, we suggest that all students have the same make and model so that they are all using the same menu functions - helping them to learn together.

Based on positive student and teacher feedback, we recommend the Casio FX-CG100. The Grange School can source these at a cost of **£77.00**.

Please make a payment of £77.00 via Bromcom – My Child At School, by selecting Graphical Calculator within the 'Products' icon, **by Monday 16th November 2026.**

Should you decide to purchase a calculator from a different source, please ensure that the calculator has the appropriate A-Level statistical functionality, and that your child would take responsibility for understanding how to operate it.

If you have any questions about this, then please do contact me directly –
panderson@grange.bucks.sch.uk

Yours faithfully

Mr Anderson and Mrs Hassard
Teachers of Year 12 A-Level Mathematics
